# 40 YEARS EXPERTISE

1980s

—————  
GardenSkill begins life as a manufacturer of rubber mouldings for the automotive industry. Automotive components remains a core part of the business to this day.

1990s

—————  
GardenSkill begins its expansion to overseas manufacturing to complement our UK production base.

2000s

—————  
GardenSkill opens its Gardening division by manufacturing a rubber connector ball used to build plant protection covers.

2010s

—————  
GardenSkill's overseas operations in China are established as the Gardening division shows rapid growth. Gardening trade sales to the EU begin.

2020s

—————  
GardenSkill expands sales into N America & Japan alongside its UK and EU operations. The Garden division now lists more than 600 product lines in the home, outdoor, pet & leisure sectors

# Plant Protection Crop Cultivation Garden Innovation

—————  
The UK's leading manufacturer and supplier of innovative plant protection, crop growing and gardening & outdoor solutions.
