GARDENSKILL is a UK-headquartered company with offices in England and Shanghai, China, specialising in global sourcing, design and manufacture, import-export and retailing.

We service a **diverse range of industries** including auto components, sport & leisure, medical equipment, outdoor, gardening and hydroponics.

The GardenSkill Group (incorporating Essential Equipment) has over **40 years' manufacturing and trading expertise** in the UK, Eastern Europe, India, South-East Asia and China to deliver competitive, high-quality goods and services from both established and emerging markets.

40+ YEARS EXPERTISE

In design, manufacturing, supply and retail. We service industries as diverse as auto & truck components, sport & leisure, medical equipment, gardening, outdoors & hydroponics.

QUALITY & SERVICE

Robust, reliable precision manufactured products with fast lead times.

CLIENT SUPPORT

Extensive marketing materials and expert advice to help you maximise the sales potential of our products.

LEADERS IN DESIGN & SOURCING

UK-based design team with **40 years'** experience focused on innovative, award winning garden solutions. **20+ years'** Shanghai office / Asia operations to ensure competitive sourcing & production.

Allotmenteer – Raised Bed & Crop Cover Kits

Transform your garden into a mini allotment with the Allotmenteer. The Allotmenteer is an all-in-one solution for growing fruit & veg, featuring an easy-built raised bed and matching crop cover in either 4mm mesh netting or tough uPVC. The kit takes just 5-10 minutes to construct with no tools needed and can be located in the garden or on hard ground such as a patio. The twin-walled raised bed insulates crops, giving them a head start for the growing season. The 4mm mesh cover stops birds, cabbage whites, and other critters eating your goodies, while the poly greenhouse cover is ideal for ripening tomatoes, peppers, and other sun-loving edibles.

Pop n Crop Plant Umbrella

A completely new and unique way to protect fruit, vegetables, herbs, plants and flowers from pesky birds, cabbage whites, rabbits, large insects and pets.

The Pop n Crop really couldn't be simpler or quicker to use - simply open the brolly, push the spike into the ground and peg down. Instant crop protection!

Our net brolly has 4mm mesh netting which provides a sturdy barrier against pests but also offers subtle shading from summer sun, as well as an optimised microclimate for your plants. Ideal for strawberries, salad crops, seedlings and other plants. Available in two sizes.

Our poly umbrella features a heavy-duty poly cover which can be used as a season extender to pre-warm soil and ripen crops. Ideal for chillies, small tomato plants and other sun-loving edibles! Size: 1.2m x 0.75m high.

Our NEW fleece brolly is a 2-in-1 cover for all-weather protection. Our smaller size net brolly is decked out with its own detachable 50gsm fitted fleece cover. Use in net form during spring and summer, then add the fleece cover in autumn and winter. Fleece cover also available separately.

NET 4mm Netted Mesh

GIANT Pop-Up Crop Cages

The largest pop up fruit & veg cages on the market, offering a huge growing space with instant assembly for unparalleled convenience and ease of use! Ideal for covering large veg patches, these pop ups are also great for siting inside rectangular raised beds. Strong but flexible and can be moved around the garden with ease to cover multiple growing areas to take full advantage of sun and shade. Great for most small and medium height crops including brassicas, blueberries, strawberries & salads. Large zip doors for easy access to plants.

Pop-Up Poly Greenhouses

Redesigned for ultimate strength and crop protection combined with unparalleled convenience. Our pop up greenhouses assemble in just a couple of minutes with no tools needed. The hard-wearing mesh reinforced poly material is tear resistant and purpose-built to withstand wind, summer storms and harsh weather conditions. The unique domed roof ensures rainwater run off while the zipped door and mesh vent allow airflow and easy access to crops. Perfect for growing and ripening a range of greenhouse edibles including tomatoes & peppers.

'Essentials' Fruit Cage Components

Bamboo Cane Connector Balls

Fit securely around 7-14mm \varnothing bamboo canes and 11mm \varnothing plastic covered steel plant stakes (used for our 'Essentials' Fruit Cages).

Simply ease canes/rods into the connector holes and tighten clamps as required. Add netting and you're ready to go!

Build fruit cages, cloches and other garden structures.

- Cane Balls – Singles, Loose – GSK2025
- 4 Cane Balls + 8 Clamps – GSK2025P4
- 6 Cane Balls + 12Clamps – GSK2025P6
- 8 Cane Balls + 16Clamps – GSK2025PK
- Cane Ball Clamps/ Clips – GSK2027

11mm \varnothing Plant Stakes

- 0.75m (30") Long
- 1.20m (47") Long
- 1.50m (59") Long
- 1.80m (71") Long

See page 34 for plant stake details & info

11mm \varnothing Plant Stake Connectors

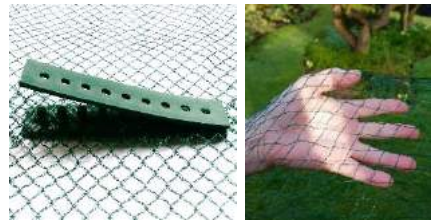

Straight Connectors – Extend the length of your plant stakes – build taller fruit cages, as well as runner bean frames & wigwams
GSK2155P

90 Degree Connectors – Connect plant stakes to build 3-D garden frames
GSK2154

Rotating Connectors – Connect plant stakes at any angle
GSK2149

Triangular Y Connectors – Create pea frames, tunnels, cloches and triangular supports
GSK2148

Netting & Rod Joiner Clips – A simple, convenient way to attach garden netting and fleece to plant stakes, hoops and canes.
GSK2147

Netting & Accessories Page 17-18.

- . 4, 6 & 8m wide butterfly mesh (7mm dia)
- . 4, 6 & 8m wide bird netting (20mm dia)
- . Net joiner clips - 2cm x 10cm
- . Frost fleece and fleece pins
- . Ground & netting pegs

Runner Bean Wigwam Connector

Connect 11mm & 16mm dia plant stakes & canes. Create wigwams to grow beans & climbing plants.
GSK2305

Build-a-Cage Fruit Cages

Premium modular fruit cage for protecting all your fruit & veg. Quick to build with no tools needed – simply insert tubes into connector balls and stake into ground. Extends upwards and outwards by adding balls and tubes. Almost unlimited range of sizes available, up to 1.875m high.

Build-a-Cages are available in 1 metre and 1.25 metre width and length combinations and come in three different heights (0.625m / 1.25m / 1.875m)

Plant Fleece Jackets

Extra-large, ultra-thick fleece bags for vulnerable, tropical and overwintering plants, shrubs and trees. Made from 50gsm horticultural fleece – 15-20sm thicker than most fleece bags for **ULTIMATE WINTER PROTECTION**. Adjustable drawstring at the base to retain warmth and insulation. Available in a range of sizes.

Fleece Jacket – 1.25m wide x 1.85m high
Code: GSK1830

Fleece Jacket – 1.6m wide x 2m high
Code: GSK1828

Fleece Jacket – 2m wide x 2.5m high
Code: GSK1829

Fleece Frost Covers

Protect your plants from cold, frost, snow and pests with our giant Fleece Covers. 50gsm heavy-duty fleece ensures superior warmth and insulation, while allowing light permeability and airflow for healthy plants. Robust and reusable. Put directly over plants and trees or over similar sized fruit cages and raised beds. Comes with 10 galvanised steel securing fleece pins (15 x 3cm).

Fleece Cover top is pre-sewn. Ideal for covering large areas. Put on top of your trees, plants and crops or over similar sized fruit cages and raised beds.

Fleece Cover – 1.35m x 1.35m x 1.5m high

Code: GPF125-10. Pack 1 Cover + 10 Fleece Pins

Fleece Cover – 1.5m x 1.5m x 2m high

Code: GPF125-12. Pack 1 Cover + 10 Fleece Pins

Fleece Cover – 1.35m x 2m x 2m high

Code: GPF125-14. Pack 1 Cover + 10 Fleece Pins

Fleece Sheets

Crisply cut garden frost blankets for your tender plants and grow patches. 50gsm (grams per sq metre) fleece ensures unparalleled warmth and protection from harsh weather. Hard-wearing but flexible and easy to work. An ideal crop cover for cold, wind and snow.

Sizes:

6m long x 2m wide – GSK1820L6

22m long x 2m wide – GSK1820L22

Plant Protection Netting

High grade UV-protected soft touch netting to protect plants and crops against a range of common (and not so common) garden pests!

Three mesh sizes – 20mm (bird), 7mm (butterfly) & 0.6mm (insect/carrot fly) – for a range of crops including soft fruit such as strawberries and raspberries, brassicas such as cabbages and cauliflowers & root veg including carrots and parsnips.

Available by the roll or in pre-cut sizes to suit your specifications.

NEW!

Rod, Hoop & Net Joiner Clips

Join garden netting to hoops, stakes & rods to create plant covers and barriers. Drape netting over garden frames and secure net to frame with clip.

Use with bird, butterfly, insect net & frost fleece.

Can be used to support runner beans or other climbing shoots as they grow.

Tough, durable, weatherproof and UV protected with strong grip.

Fits 11mm diameter plant stakes, hoops & poles.

CODE: GSK2147

Build-a-Bed Raised Bed – 150mm high

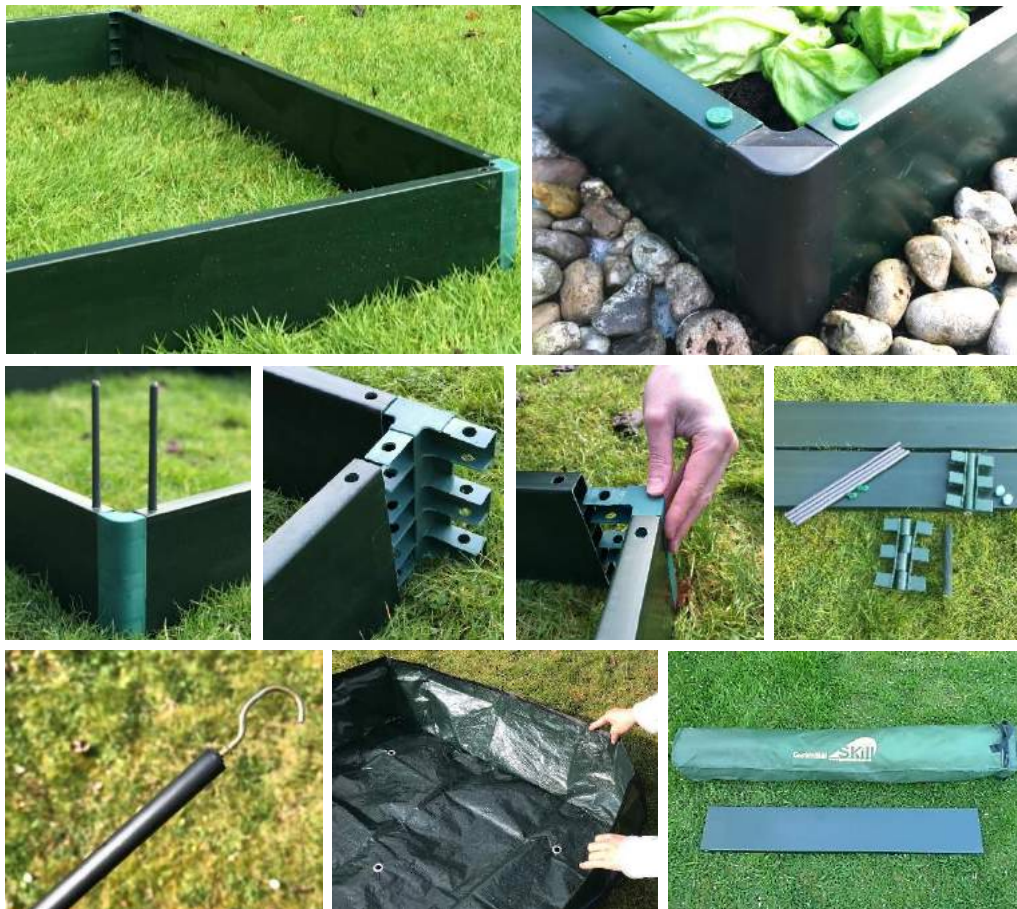

Raised beds are great for growing delicious fruit & veg, allowing you to tailor soil composition, boost plant nutrition and optimise drainage. Our Build-a-Beds go even further, giving flexibility to BUILD AND EXTEND your raised bed to create the growing space you want. The MODULAR DESIGN means beds can be expanded in minutes with no tools needed (see our extension kits), offering the chance to try a variety of crops or simply grow more of what you like! Made from RECYCLED uPVC for years of happy, eco-friendly planting!

Kit contents: planks, connectors, locking pins and locking pin caps.

Build-a-Bed Raised Bed – 250mm high

The most flexible raised bed available – EASY TO EXTEND in any direction, outwards or upwards! Twin walled uPVC planks are RECYCLED AND ECO-FRIENDLY and offer ideal insulation for your fruit and veg, while the clever modular design means the bed can be easily extended in minutes with no tools needed. Unique to GardenSkill's 250mm high raised beds, the curve profile top and bottom edges ensure that planks 'lock' together when stacked, allowing for stable double or triple height beds with NO SLIPPING – ideal for deep rooted crops.

NO TOOLS NEEDED - everything you need to 'build your bed' is in the box!

Pro Gro Net Tunnels

High grade, professional quality net tunnels for serious gardeners. Unlike hoop & wire tunnels the Pro Gro's carbon fibre frame is highly flexible but maintains strength over time, giving a stronger tunnel that's less prone to bowing or collapsing.

Large, zipped doors provide easy access to crops, pots and flowers; guy ropes at either end ensure greater stability in windy weather; UV-protected mesh gives subtle shading for plants. These tunnels assemble in minutes and pack down into a small bag for easy storage.

Soft touch 4mm diameter netting protects your crops from birds, butterflies, caterpillars and other garden pests.

3m x 1m x 1m

5m x 1m x 1m

2m x 0.75m x 0.50m

Pro Gro Tunnel Sizes

- GPN200-40 – 1.00m x 1.00m x 1.00m high (1 side door)
- GPN200-12 – 2.00m x 0.75m x 0.50m high (2 side doors)
- GPN200-19 – 2.00m x 1.00m x 1.00m high (2 side doors)
- GPN200-10 – 3.00m x 0.75m x 0.50m high (2 side doors)
- GPN200-20 – 3.00m x 1.00m x 1.00m high (2 end doors + 1 side door)
- GPN200-30 – 3.00m x 1.50m x 1.50m high (2 end doors + 1 side door)
- GPN200-25 – 5.00m x 1.00m x 1.00m high (2 end doors + 2 side doors)
- GPN200-35 – 5.00m x 1.50m x 1.50m high (2 end doors + 2 side doors)

- Strong, flexible carbon fibre frames
- Guy ropes for extra stability
- Large zipped doors for convenience
- Easy to set up and store away when not needed

Garden Hoop Tunnel Kits

Unique hoop tunnel frames that are quick to build, simple to modify and easy to store. Our hoop tunnel frames come in half hoop sections, which are joined together by tough connectors to form complete arches.

Easy to extend by length or height – simply add more tubes and connectors – these hoop kits offer flexibility to modify your tunnel as you go along, giving you the freedom to grow what you want, where you want! They assemble in minutes with no tools needed and come in various sizes – see table below

Want to extend your tunnel? No problem! Our tunnels can be easily extended using our wide range of hoop sections, straight 16mm diameter aluminium tubing, and 2-way, 3-way and 4-way connectors. We also offer various cover options in bird, butterfly, insect netting and fleece. See pages 12, 17 & 18 for more details.

Tubing dimensions: 16mm external diameter; 14.1mm internal diameter

Super Cloche Extendable Plant Grow Tunnel

Our new easy-build giant garden cloche tunnel for growing and protecting fruit, veg, flowers & herbs.

The Super Cloche is made from ultra-heavy duty 16mm diameter plant stakes and measures approx. 2.4m long x 1m high x 0.75m wide.

Taking just minutes to build with our easy-fit plant stake connectors, the Super Cloche comes with 20mm mesh bird netting for growing/protecting fruit or 7mm mesh butterfly netting for brassicas.

Easy to extend by simply adding more poles and connectors, the Super Cloche can adapt to changing needs to cover veg patches, raised beds and large planters

Strawberry & Fruit Super Cloche
(Bird Netting) – GSK2262

Cabbage & Brassica Super Cloche
(Butterfly Netting) – GSK2261

Pet Play Pens & Hen Houses

Quick and secure shelter for your chickens, tortoises, rabbits, guinea pigs and other pets. Our range of chicken runs and pet houses give your animals room to move and graze while providing a safe space from predators, bird flu / virus transmission and other dangers. Use as standalone temporary garden shelters or add to your existing chicken coop / pet cage to make an extended outdoor run. All our pet houses feature tough PE barrier netting (4mm diameter) which also provides ventilation and shading from the sun to keep animals cool.

Pop Up Pet Houses

- Instant assembly with no tools needed
- Large, zipped door for easy access
- Strong but light - move around the garden with ease
- Comes with a carry bag for easy storage
- Securing ground pegs included

Bird Flu Protection Chicken & Pet Runs

Our best-selling solution for year-round chicken and pet protection, offering a secure, temporary shelter for your chickens, rabbits and small pets to roam, play and graze.

Our chicken run tunnels are great for single and small groups of pets as a temporary garden or outdoor shelter. The robust 4mm diameter mesh netting provides a protective barrier but also offers shading from the sun and ventilation to keep animals cool. Large zipped doors provide easy access, while the space saving bag offers convenient storage when not in use. They assemble in minutes with no tools needed and come with fixing pegs.

Plenty of room for chickens to roam and graze

Can also be attached to a coop as an extended run

Comes with space saving storage bag

Various sizes up to 5m in length & 1.5m in width

Large zipped doors for access, guy ropes for stability

" The hens were delighted, as they'd spent 4 days in their indoor pen due to Avian flu... I recommend it! "

- Eva, Amazon review

Decorative Garden Screens

Beautiful decorative screens for creating private areas and borders and adding year-round interest to your outdoor space. Laser cut 3mm thick steel in two designs and two finishes - painted white or corten steel for a rustic and 'weathered' look. Size : 150cm x 60cm – GMS Screen Series

- Fence off areas & partition garden spaces
- Intricate nature-inspired patterns
- Hang on walls, bolt to posts or on to feet
- Weatherproof for maintenance free use

Garden Art Wall Plaques

Bring a touch of class to garden walls, sheds, fences and doors with our hanging wall plaques!

These high-quality decorative metal plates are precision laser cut and come in four attractive designs - three in power coated black and one with a corten steel finish for an attractively 'weathered' look that naturally rusts over time.

Fully weatherproof and maintenance free, these plaques make a wonderful decorative centrepiece for both garden and home.

Garden Peanut & Seed Bird Feeder

Beautiful and robust open top ceramic bird feeders for attracting sparrows, a wide range of garden and wild birds. Ideal for small seeds and nuts such as peanuts and niger seeds. Our bird feeders come in a matt / unvarnished off-white finish for a wonderfully natural look for your outdoor space. Comes complete with a solid metal easy-fit mounting stake for easy ground insertion. Simply screw the two stake pieces together, screw into the bird feeder and mount in the garden - ideally in full view from a kitchen or conservatory window! • Mounting stake dimensions: 1m long x 6.75mm diameter

Small – 13cm L x 6cm W x 10cm H – GSK2300

Large – 15.5cm L x 8.5cm W x 11cm H – GSK2301

Pack of 2 (Small + Large) – GSK2308

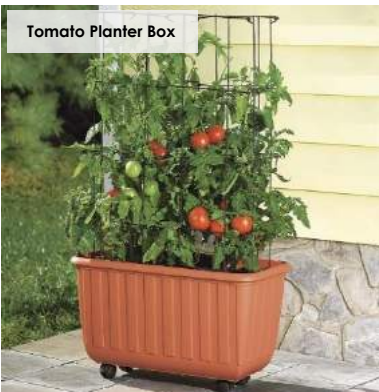

'Pot Master' Pot Plant Drainer Discs

Ensure healthy growth and optimum drainage in pot plants. The Pot Master sits at the bottom of your pot, creating vital space between the holes in the pot and the roots of the plant. Earth and roots are prevented from seeping into pot holes, avoiding blockages and damaged plants.

This means a healthier plant with stronger root growth. Canes can also be inserted into the Pot Master's support tubes to support plants grown in a light medium. Great for both indoor and outdoor use. Pack includes 3 discs and 3 support tubes. Canes not included. 5.8" / 14.8 cm diameter - GSK1669P

Pot Master discs in tomato planter. Note: bamboo canes not included

Pot Master Tomato Planter

The Pot Master Tomato Planter helps you grow perfect tomatoes, peppers, chillies and more! Our planter features an integrated water reservoir and overflow for optimum watering conditions, reducing the need for additional watering. Through a specially designed opening on the bottom, water levels can be easily checked and topped up when needed. Removable wheels mean your planter can be moved easily to take full advantage of the sun!

The Pot Master Tomato Planter comes with or without 3 x Pot Master Drainer Discs (5.8" / 14.8cm dia) that can be placed along the length of the container. Insert bamboo sticks or similar in locator holes to give additional support to your growing plants. Planter dimensions: 33 x 35 x 65cm L. PLEASE NOTE: METAL TRELLIS IN PICTURE NOT INCLUDED.

Pot Master Tomato Planter (+ 3 discs) – GSK1669PLANTER

Pot Master Tomato Planter (no discs) – GSK2280

Pea, Bean & Climbing Plant Support Frames

Pea Frame Kit

GSK2210 (11mm \emptyset) GSK2259HD (16mm \emptyset)

Cucumber & Heavy Climbing Crop Grow Frame

NEW!

New for 2022! Our ultra-heavy duty cucumber frame kit is purpose-designed for growing heavy climbing veggies such as cucumbers, courgettes, squashes and even melons, as well as lighter climbers such as peas and French beans.

These frames are constructed using ultra-thick 16mm \emptyset plant stakes and our metal plant stake connector clips. It takes a bit more hand strength than usual to attach the clips to the rods, so find a nice strapping lad or lass to help you if needed! But the pay off is an incredibly solid triangular frame that feels like it would survive a typhoon intact! Ideal for raised bed & veg patch growing.

Kit includes: 0.75mm – 16mm \emptyset stakes, Metal locking clips, 2 Triangular connectors, Straight connectors, Rotating Connectors and Bird Netting

0.75m wide x 1.4m high – GSK2284HD

1.50m wide x 1.4m high – GSK2285HD
