## Flexible & Versatile

The Pop n Crop Raised Bed & Planter Guard is a completely new and unique way to protect fruit, vegetables, herbs, plants and more from pesky birds, insects, pets and pests! The Pop n Crop works just like an umbrella - simply push the latch, open up, insert the central spike into your planter and peg down. When not in use, the Pop n Crop folds away for easy storage in a shed or garage - ready for next time! The simplest, quickest and most convenient way to grow and protect veg patches & raised bed plantings such as strawberries, seedlings, salads, herbs and low growing brassicas.
